### **HART & COOLEY DONATES BUILDING INSULATION TO HABITAT FOR HUMANITY.**

**GRAND RAPIDS, MI** — Hart & Cooley recently teamed up with Habitat for Humanity to donate building insulation. With the help of Hart & Cooley's Sanger manufacturing facility and the Fresno Habitat for Humanity over a ton of insulation will be put to good use.

The Hart and Cooley manufacturing plant in Sanger California is responsible for making the insulated flexible duct that Hart and Cooley has become known for. Flexible duct is used to distribute conditioned air in some residential and commercial applications. As part of the manufacturing process Hart&Cooley uses building insulation between the core and the jacket of the flexible duct to create an insulated flexible duct

When the opportunity to donate insulation used in Hart & Cooley flexible ducting presented itself to the Sanger facility, Habitat for Humanity of Fresno California became the perfect solution. As David Daniel, plant manager said, "by this donation, we not only are helping a local non-profit agency, we are reducing the environmental impact on landfill waste we produce from our insulation not being used".

Hart & Cooley is always looking for ways to do their part for the environment and are proud to be the first to donate this type of product to the Fresno Habitat for Humanity. "Whether it is through our new line of indoor air quality and energy saving products, recycling, or minimizing waste we are continuously seeking ways to better the world in which we live. This is a terrific opportunity to add to this effort. We are delighted to be supporting Habitat for Humanity."-Tracy Sianta , Director of Marketing

Owned by Tomkins plc, Hart & Cooley, Inc. is a leading manufacturer of air distribution and vent products for heating, plumbing and air-conditioning systems. Major product lines include grilles, registers and diffusers, flexible duct, gas vent and chimney systems, and duct system components. Founded in 1901, Hart & Cooley, Inc. has operations USA, Canada, and Mexico. For more information, visit [www.hartandcooley.com](http://www.hartandcooley.com).
